# FERTILITY AND WOMAN HEALTH AREA

# FERTILITY AND WOMAN HEALTH AREA

## what is the use of the product?

Women of every age, height, weight and activity level have at least one thing in common: they need certain nutrients that their bodies don't make, but require to function properly. When considering supplements, women need to think to fertility, pregnancy and babies.

## effects

food supplements composed by vitamins and other molecules

1. contribute to the growth of maternal tissues during pregnancy
2. useful for the treatment of anxiety states
3. helpful for postmenopausal women with metabolic syndrome
4. improve ovarian function and fertility in women with PCOS
5. beneficial effects on fertility and pregnancy.

## formulation

Powder in sachets, tablets and capsules.
